AI Accelerator Agenda

London, UK
Tuesday 1 December 2026
08:00–1:00 PM

Build an Agentic AI Application in One Day
Learn how to build, govern, and deploy agentic AI applications with simple plain language description. Using C3 Code, your own data, and a high-value use case, your team will build a working application and gain the skills to continue building after the event.

8:00–8:30 AM	**Breakfast and Networking**	Network with peers from across industries over a croissant and coffee.
8.30–9:00 AM	**Kickoff: Building Agentic AI Apps for the Enterprise with C3 Code**	Opening remarks from an industry leader and a walkthrough of the format for the morning. C3 AI leadership will share customer examples, show where AI creates value, and introduce the approach you will use during the build.
9:00–10:30 AM	**Guided Build: Learn the Fundamentals**	Get hands-on with C3 Code on the C3 Agentic Platform through example prompts and guided exercises. Build your first application and learn the fundamentals you'll apply to your own use case.
10:30 AM–10:45 AM	**Break**	
10:45 AM–12:00 PM	**Apply It: Build Your Use Case**	Put the fundamentals into practice with your own data and business challenge. C3 experts will be on hand to guide you all the way, using your own or synthetic data, as you refine prompts, test your application, and explore security and governance considerations.
12:00 PM onwards	**Working Lunch and Team Showcase**	Present your application back to the group and share what you learned. See what other teams built, discuss ways to improve your application and identify next steps.

Before you arrive

Bring your data
Up to two years of your own data, or use synthetic data on the day.

Bring a real problem
Come with a high-value business challenge. You will leave with a working application.

Who should attend
Developers, data engineers, AI/ML practitioners, analysts and business owners.

C3 AI London office
(two minutes' walk from Waterloo Station)
10 York Road, London SE1 7ND
